## THE REBELLION.

Looking over the whole country,

for it is still one country, thank God; and calculating from the best information, it is not unreasonable to estimate the actual loss of human life by the war, at one million of fighting men. The actual loss or misapplication of national and individual wealth, both North and South, cannot be put down at less than six thousand millions of dollars, a sum so vast that the mind is utterly bewildered at an effort to comprehend it. The demoralizing influence of the war is greater than this, but cannot be computed in dollars and cents. As an offset to this, we are fairly and forever rid of the system of slavery, an institution that has been an incalculable curse, and was the immediate or proximate cause of the war.

Now that actual hostilities have ceased, and peace proclaimed throughout the nation, it remains for the people to determine how long the evils incident to civil war shall remain to curse and impoverish the country. The concurrent testimony from the South is, that the logic of events is accepted in good faith, if not in good heart, and that there is an almost universal disposition to act loyally towards the Government. The names of the people throughout the North too, are disposed to let bygones be bygones, and inaugurate a National Union and fraternity that shall be more honest and earnest than any that existed before the war. There are a few demagogues, butchers and robbers scattered here and there, who will continue to do all in their power to preserve the pacification of the country; but with the well known conservative and healthy policy of the President and his better known purpose to stand by the right, there is nothing to fear. The wonderful recuperative energies of the country will manifest themselves in a speedy return to happiness, and commercial and industrial prosperity.

The Daily Union-Verdette.

WEDNESDAY MORNING, SEPTEMBER 27, 1894.  
BY PACIFIC TELEGRAPH.  
(SPECIAL TO THE DAILY UNION-VERDETTE.)

New York, Sept. 27.—  
Merchandise Market.—A violent fluctuation in various foreign goods. The demand for provisions is a shade higher. White wheat continues to advance, with prices very firm. Flour is 15 to 20 cts. higher. Corn is selling at \$1.12 per bushel, and medium at \$1.05. Hides are steady, with no speculation, however, in it; sales are made only to meet the wants of consumers, and holders are firm in their demands for an advance. Sales of 200,000 lbs. California at 37 to 42 cts. Tallow has advanced within two days to 17 1/2 cts. with a demand for export. Gold is quiet and foreign exchange firm. The leading banks asked 109 7/8 to 110 for thirty day bills, and 110 5/8 to 111 3/4 for three days. Stocks are without animation. Quicksilver Mining, 46; Mari- posa, 12.

The General Land Office has issued instructions to the Register at Marysville, Cal., informing him that selections of public lands by the States, not admissible from unreserved lands for double minimum, nor from within the limits of the grant of Congress for the Pacific Railroad.

The American naval squadron in the Pacific is being reinforced by the addition of ten heavy armed vessels, and two iron clads.

September 23.—  
The steamer New York, from Panama, has arrived. The country has been kept in continual excitement by the reports from the seat of war in interior, produced by a dispatch from the command of the government forces, that all rebel leaders have been arrested, with a large portion of their followers, and that the entire revolution in the state might be considered at an end.

Col. Alex. R. McKee, U. S. Consul at Panama, had died at that place, after a week's illness, of dysentery; his funeral was the largest ever witnessed in Panama.

Capt. Davenport, of the U. S. flag ship Lancaster, was put in charge of the consulate until a successor is appointed.

The death of R. Hopkins, chief engineer of the California and Boreventura Railroad is also announced.

Trouble appears to be brewing throughout the Republic. From Santa Martha, we have news of a further revolutionary movement there. The security of the place is being threatened by the rebels under Fuentes. The prospects of the rebels in Peru, is reported not as bright as previous accounts represented there. It is thought that the Government will succeed in putting them down. The passage of the law for religion and worship of all kinds in Chili is satisfactory. The Government has called for steam communication to England via the Straits. Business in "algarasio" is much improved. Exchange on England is 43 1/2 to 44.

The authorities of Salvador recently held a summary court martial on Gen. Berrios, a revolutionist and had him shot at night and shot at 1 o'clock the next morning. His execution had created general dissatisfaction throughout Central America.

The U. S. Flag ship, Lancaster, remains in Panama, as also the Cyane; the latter will soon proceed to sea. The steamer New York, brings \$1,850,000 in specie.

New York, Sept. 23.—  
Documents concerning the Free Government of Mexico are published by J. N. Navarro, Consul of the Republic of Mexico in the United States, including a commission from President Diaz, and Mr. Romero, his Minister at Washington, in circulars from the Secretary of State. Mr. Leido de Joda Jurez, left Chihuahua August 5th, and arrived on the 15th at El Paso, where he established a Government, surrounded by his Cabinet as we have heretofore announced. He is not only hopeful but confident of ultimate and complete triumph over the invaders. He has still large bodies of troops at his disposal, who have commenced attacking various detachments of Imperialists in detail, and now that the latter have so greatly weakened their lines by extending them and he anticipates decisive victories very soon. He does not think Maximilian's forces will be likely to attempt to drive him from El Paso, but even should they succeed in doing so, he has no idea of abandoning the country, but will run over to some other point within the limits, and there continue the struggle, sanguine of success.

The officers of the Mexican Republic who left El Paso, leaving El Paso on the beginning of the present month, were unanimous in the reception of President Diaz, and advised him to go to the interior to collect and discipline the recruits, and it is expected that he will be able to raise a large force in a short time.

New Orleans, Sept. 21.—  
The Time's Montgomery special says, the Convention passed the ordinance abolishing slavery by a vote of 89 for and 3 against. The amendment of the Constitution to nullify previous relations of slaves and protectors for the freedom of personal property, and guarding the State against all evils arising from the sudden emancipation.

Montgomery, Sept. 21.—  
The convention to pass the ordinance abolishing slavery, was not inconformity with the constitution of the United States, and the ordinances of the present convention, except that concerning the issue of treasury notes and bonds.

St. Louis, Sept. 15.—  
The Provost Marshal at Elmwood has arrested the Judge, Sheriff, Dist. Attorney and Jury of the 10th Judicial District for trying a negro on the charge of larceny. The Superintendent of Freedmen says, the jurisdiction over negroes during the existing interpreted civil law belongs exclusively to his Bureau. The gave notice of an appeal which was judge granted.

New York, Sept. 23.—  
The steamer New York, which arrived from Aspinwall this morning, made the passage in six days, eleven hours and twenty minutes, being the quickest passage on record. Over five hundred dollars were raised among the passengers to purchase a service of pilots for Capt. Nicholson and \$100 more for the coal passage.

New Orleans, Sept. 22.—  
Governor Wells, promulgating calling for election of Congressmen and State officers on the first Monday in November.

her, was issued to-day.  
Genl. Osterhaus has assumed command of the 8th corps of Mississippi and Slocum has gone south.

New York, Sept. 23.—  
The printing office of Williams and Scott, was destroyed by fire this morning; among the papers printed there, were the Leader, Atlas, Citizen, Dry Goods Reporter, Commercial Bulletin, New Yorker, Democrat, Sunday Times, and Courier. The edition of the Courier for this week was lost. All these papers will suffer delay.

The U. S. Steamer "Florida," with seven guns, sailed from this port for Aspinwall yesterday, with three hundred men for the Pacific Squadron.

Washington 23.—  
The U. S. Consul General at Constantinople, under date of August 28d, reports the sensible abatement in the cholera since his last dispatch. The number of deaths on the 21st, was one hundred and forty-three, while heretofore it has exceeded 2,000 in any one day.

The President granted 15 pardons to-day, 9 of them were Virginians, including the wife of General Longstreet.

New York, Sept. 21.—  
Another great Fenian demonstration is advertised for Wednesday evening next, at the Cooper Institute, and delegates from neighboring cities are to attend.

Capt. Chas. M. Marshall, one of our wealthiest and most respected merchants, died yesterday.

The steam propeller "Oceanic," running between New York and Providence, collided about 4 o'clock yesterday morning in the Sound, when 39 miles from this city, on her way hither, with the ship "Jacob Duran," cutting the latter nearly in two. The Duran had on board three ladies, two men and two children; of these, one lady, Mrs. Sarah Davis, of Port Jefferson, and her two children, were drowned.

The Herald's Washington special says, the Attorney General has decided not to consider applications for pardon in future from individuals who have committed crimes of the territorial kind of the United States; such persons must first return and submit themselves in good faith to the action of the Government.

The practical working of the rule will probably be to favor the expatriates of the enemy and prominent rebel refugees.

New York, Sept. 25.—  
The Times London correspondent dated Sept. 9th says, there's an awful panic in Ireland on the Fenian question. A company of 300 or 400 Yankee Irish, landed at Queenstown from one of the late steamers, and took the R.I. Road for the Interior. They were known by being better dressed than their countrymen of the same class, wearing broadcloth clothes and calf skin boots; and their independent manners and free talk about the superiority of American Institutions and by having hands full of gold.

They left two and two at the various stations along the road. The obvious inference is, that they were friends of either the Federal Government, or the Fenian organization. They are well supplied with money and well qualified to drill the native and unsophisticated population. I know by personal observations, that the people of Ireland are disloyal, that they detest the Government which has been forced upon them, and that they are ready to follow any one hundred thousand Irishmen could spring to arms to-morrow, if they had any friends to spring too, and any reasonable prospect of making a successful struggle for independence; but without foreign aid, there is no such prospect of efficient success and foreign aid seems farther away than ever.

In the mean time, ballad singers are shouting the song of the "Bold Fenian Boy" at every street corner and the papers are full of stories of nocturnal marchings and drillings of Fenian hosts; and, more than all, Yankee Irishmen or Irish Yankees with hands full of sovereigns, short swords and army revolvers, who have been fighting to put down the rebellion in America, are soon going to fight to get up a rebellion in Ireland, and more than all, perhaps, are letters from America, written by Irishmen to their relatives, urging them to come to a safe place before the trouble begins, giving the nervous people a good deal of alarm.

New York, Sept. 25.—  
Gen. Terry, commander of the department of Virginia, has just given the people of that State a very forcible reminder, that martial law still prevails there, by the issuance of two orders making provision for loyal proprietors to recover the property confiscated by the rebel government, and by putting a stop to all legal proceedings instituted against national officers for acts done in the performance of their official duties hereafter while martial law continues to prevail.

The General announces that any persons connected with the institution of suits of this character will be arrested.

A meeting of the board of regents of Virginia, at the military Institute at Lexington, was held on Thursday last. Ex Genl. Curtis Lee, son of R. E. Lee, and formerly a member of Jeff Davis' staff, was elected to the Professorship of mechanics, and military and civil engineering. Major Blair, another rebel officer was chosen Prof. of natural Philosophy.

Farther Point, Sept. 25.—  
The "Moravian" from Liverpool, arrived London yesterday.

A meeting of the Atlantic Telegraph Company was held, it was unanimously decided to adopt the direct route, and consequently sanctioned the new contract made for the cable last year.

The question of raising additional capital was postponed for another meeting to be held on the 12th of October. The Daily News says, no time will be lost in giving check to the Fenians.

The Gov's plan will soon be announced. The St. Ledger race was won by the French horse Gladiator, who was also the winner of the Derby last spring.

New York, Sept. 25.—  
The difficulty arising out of the arrest in Prussia of Germans (who had been American citizens), for the non-performance of military service required by the Prussian Laws, continues to excite the attention in that country. The Prussian Laws and constitution imperatively requires every subject of Prussia, to perform military duty and it cannot be altered at pleasure by the executive authority; assuming that statement to be correct, the only way to relieve naturalized American citizens from the obligations which they are considered to be under, towards the land of their birth, would be a conclusion of the treaty between the United States and Prussia to that effect, hitherto such have been generally released from the duty to which they are subjected, but only after a great deal of trouble and out of special regard for the United States Government.

ment, on its representation, and not in virtue of their rights as American citizens.

The Herald's Berlin correspondent believes that it is a convention to this effect was submitted to the Prussian Legislature, it would be passed by an immense majority, as the liberal party are extremely desirous of being on good terms with the great transatlantic Republic.

The Herald's St. Albans, Vt., correspondent contradicts the report which was so generally circulated, to the effect that banks in that place had refunded to them by the Canadian authorities all the money stolen on the 19th of October by the rebel raiders. He says the total amount stolen was over \$210,000; of this \$20,000 was returned by the Canadian.

It is said that Secretary Seward has made a demand on the British government for the restitution of the money, on the ground that the raid took place while some Canadian officials were aware that it was contemplated, and that they assisted the raiders in making their escape, and threw all possible obstacles in the way of their arrest and punishment.

The Herald's Washington special says, the President has approved the change of route for the Pacific Railroad, west of Omaha, the company having acceded to the condition that the grade shall be reduced to thirty feet to the mile between the Missouri and the Platte valleys.

The Southern Advocate of the 18th says, the following extract which has just been published, is from the late President Lincoln's letters to Genl. Wadsworth, who fell in the battle of the Wilderness: "You desire to know, in the event of our complete success in the field, and the same being followed by loyal and cheerful submission on the part of the South, if universal amnesty should not be accompanied with universal suffrage. Now, since you know my private views as to what terms should be granted to the South in the contingency mentioned, I will here add, if our success should thus be secured, and if I followed by such desired results, I cannot see if universal amnesty is granted, how, under any circumstances I can avoid exacting in return universal suffrage, or, at least, suffrage on the basis of intelligence and military service. How to better the condition of the colored race has long been my study, which has attracted my serious and careful attention. I think I am clear and decided as to what course I shall pursue in the premises, regarding the religious nation's guardians of these people, who have so heroically vindicated their manhood on the battle field, wherein a sinner the slave and the public, and have demonstrated in blood their right to ballot, which is but the humane protection of the flag they have so fearlessly defended."

Washington 25.—  
The Commissioners appointed to treat with the Southwestern Indians at Fort Smith, have concluded their negotiations, and have been uniformly successful.

Additional Foreign News.—The Great Britain Fenian movement continues to cause some apprehension. A meeting was to be held on the 4th inst., of the Magistrates of the county of Cork, convened by the Lord Mayor, to consider what measures were necessary to be taken in view of the progress of the Fenian movement in that section. The London Daily News in an editorial on the subject, says the Fenian movement is confined chiefly to laborers and idlers of low degree, of intelligence of the country, and above all, the Catholic clergy is on the side of order and "will soon appear what the Government means to do. It is clear there is no time to be lost, there will be no question on either side of the Irish Channel of putting down this movement, as the work of mercy; it must be done; there must be prompt, careful, complete prevention and a repression of the rebellion, whether weak, or formidable. There will be great mercy to Ireland if every Fenian leader were at once put on trial.

The following is a summary of the news by the Steamships Yna and Virginia, which sailed from Liverpool for New York, 18th.

The London Times has an editorial, strongly denouncing the continued repudiations of the Shenandoah, sharing in the indignation of America against her and says that Captain Waddell is acting on his own responsibility, and unless he can clearly show he had no knowledge of what was known to every body else in the same latitude, he has no claim to mercy. The Times adds, that England has done all that the International Law requires in the matter, and suggests that she might under circumstances go farther, and that British ships of war should be instructed to treat the Shenandoah as any other pirate, and assist the United States in stopping her outrages. It trusts that instructions to this effect will be sent to the British Commander in the Pacific.

The Times publishes a letter from Ex-Secretary Benjamin, denying that the Rebel Government treated Federal prisoners with cruelty and suggesting Jeff Davis from charges of humanity. Benjamin says that the chief cause of suffering was the course taken by the Federal Government relative to the exchange of prisoners.

The Times has the following letter from a Federal naval officer, denying Benjamin's statement, and says, that in the absence of the President, information concerning Fenianism, it is impossible to determine what significance is to be attributed to the reported movements of members of the order, but the amount of repression will be very slight as the feeling of disaffection is confined to the lowest class of Irish people. The Channel Fleet has left Portsmouth for the Irish coast, but Fenianism has nothing to do with its movement.

Gen. Laforet's death.  
The matrimonial alliance, reported between Prince Amadeus of Italy and Princess Isabella of Spain is unfoiled.

New York, Sept. 25.—  
A meeting of State rights men was held at the Cooper Institute to-day. Thos. Lawrence presiding; resolutions were adopted, denouncing the democratic nominations and platform as absolutely wrong, from obligations to support the party ticket and proclaiming themselves for the constitution as it is and affirming that all executive proclamations and decrees affirming the rights of State, constitutional to be null and void. The nomination of the state ticket was left to the decision of the committee. Thirty or thirty five assembly districts are said to have been represented.

THOMAS HARRIS, of Connecticut, has been appointed chief clerk of the Patent Office, and Thomas C. Schaff, of Washington, librarian.

BY PACIFIC TELEGRAPH.  
[SPECIAL TO THE DAILY VEDETTE.]  
Boston Sept. 25.  
The Concord National Bank of Concord, Mass., was entered to-day while the cashier was at dinner and the safe was robbed of \$300,000, consisting of U. S. bonds and money.

Gen'l Curtis, Col. Taylor and Mr. Gurnsey of the commissioners to make a treaty of peace with the north western Indians have returned Monday, where they were joined by Gen'l Sibley and Surgeon Wood; they expect to reach Fort Sully, where a treaty is to be held about in two weeks. Governor Edmonds will join them at Yonkton.

The commissioners arrived at Crow Creek and from the latest intelligence, it appears doubtful whether many Indians will be at Fort Sully to meet them; this may result in a delay of several weeks to Gen'l Sibley, should he be at Fort Sully. Hon. W. Hubbard, of the Congressional committee to investigate Indian affairs, is expected to join the commissioners.

New York, Sept. 25.  
Gen'l Hancock in a recent address to the Odd Fellows at Baltimore, said the power of the Government as shown in the late contest, is a star in our escutcheon, whose rays extend sufficiently to give light to London and Paris forever. His Grande is but a short distance in comparison with a thirty mile drive, from my own knowledge of country, and experience therein, that the Emperor of the French will be glad to vacate Mexico if he is allowed time to do so. He paid some millions to get that country after capturing its capital and he thought it would not cost France less than it cost us. Every day's delay will add to the expenses without a chance of compensation for certain as late, that continued occupation of that country by foreign force, which entered it in hostility to our interests and prejudice, will certainly lead to war. Its now time for forces to cultivate acts of peace and bring about a permanent settlement.

Richmond letters to the Herald say that Gen. Howard of the Freedmen Bureau, accompanied by Maj. Gen. Terry and Col. O. Brown, had a long conference with Gov. Piermont, in regard to the condition of the negroes in that State, and that the negroes were very much improved. The result will be considerable amelioration of the condition of the freedmen during the approaching winter.

Dr. John R. Wanda, of Alameda county, has withdrawn from the Congressional contest, alleging that he cannot take the oath. The remaining contestants are A. H. Stewart, who cannot take the oath, and J. P. Lewis, who can. Mr. Louthall has also withdrawn from the Prince Edward District, because he cannot swallow the oath. It is Johnson continues announcing that he can take the prescribed obligation. Political gatherings continue to be held throughout the State, and the people manifest the greatest interest in public affairs.

New York, Sept. 25.  
The World has a dispatch from Chihuahua of July 31st, which says that the Juarez cause is dead, and if Juarez was able to gather into one corps the troops that acknowledge his authority he wouldn't have more than 10,000 men, and he could not select from all the number two thoroughly organized regiments. All the wealth and intelligence of Mexico is enlisted upon the side of Maximilian, and there is no portion of the country in which the federalists might not safely and successfully proceed.

Washington, Sept. 25.  
Receipts of Internal Revenue to-day were one million nine hundred thousand one hundred and twenty dollars and ninety-eight cents.

A special to the Tribune says, combinations for the Speakership are already forming. **Gov. Lewis**, of Ohio, has many earnest friends. Green, Clay and Smith, of Kentucky, are urged with influential pertinacity, while the advocates of Henry J. Raymond, are of all undoubtedly, the most zealous opponents of the party of the State.

Gov. Lyon, of Idaho, who has been detained here to receive instructions with regard to certain treaties he has been forced to make with the Indians of his superintendency, leaves for his seat of government to-morrow.

The Freedmen's Society east and west have recently consolidated under the title of the **American Freedmen's Aid Commission** and will hereafter operate through a single organization. This step will meet the cordial approval of the Freedmen's Bureau, and a Secretary will be located in this city, who will be in constant communication with the Bureau, and through whom all communications from local organizations and branch societies will be brought to the attention of the proper officers of the Government, or of the Freedmen's Aid Commission in the States.

New York, Sept. 26.  
The steamship **Albatross** leaves Charleston dates of the 23d. Gov. Terry has issued a proclamation ordering the commanders of sub-districts, and all officers serving within the military district of Charleston, to assist in organizing the militia forces, as a home police, to act under the order of district and sub-district commanders of U. S. troops, for the preservation of order and the arrest of lawless characters. Each member of this militia force is required to take the oath of allegiance to the United States.

The first of four oared boat race for the stake of \$2,000 and the championship of America, between the Bigelow Brothers of this city, and the Ward Brothers of Newberg, N. Y., took place yesterday on the Hudson River, opposite Sing Sing, and was won by the Wards, in thirty-two minutes and fifty-nine seconds, they beating their opponents thirty-two seconds.

A special to the Times from Washington 25th, says the rush of persons to-day was not so great as usual. Among those who have for weeks sought a personal audience with the President, to press their applications, is J. Pope Walker, the first Secretary of War of the United States who sent the famous order from Montgomery, Ala. to Gen. Beauregard at Charleston to open fire on Fort Sumter. He is a native of Alabama, and is a member of the Confederate Congress.

New Journal House. A large assortment of stock of general goods has been brought here by Messrs. Wilkinson and Fenn, from New York City. They are opening in Walker Brothers' new building, warehouse lately used by Heller & Snyder. Particulars of their wholesale stock in our advertising columns, as soon as the goods are opened.

PERSONAL. - D. Street, Esq., General Agent of the Overland Stage Line, arrived here yesterday, from the east.

Capt. Copeland, proprietor of the "Copeland Line" of steamers running between Fort Benton, Ma., and St. Louis, Mo., came down here from Montana, a few days since, en route east.

Grand Show Concert, &c!!!  
Music Hall, Thursday night, Professor Myers and daughter, supported by Signor Ferrent, will give one of their Grand Entertainments of Magic, Music, Novelty and Wonder, which, for amusement and instruction, have received the praise and patronage of the Pacific Coast. Admission \$1.00; children half price.

Read the complete programmes of the troupe, the unequalled attraction, as posted around town, and fail not to witness the wonderful performances of the troupe.

SIGEL & Co's store, corner Main and Theater streets, is closed for a few days, until that addition is made in front. By the first of next week it will be open again, "enlarged and much improved." Their large stock of clothing and furnishing goods required the room's enlargement.

Bodenburg & Kahn's remodeled room is nearly ready and will be a beauty. By the way, it is quite the fashion nowadays with stores, along the east side of Main, to build additions to their front. Literally, they are coming out, this season.

BULLY FOR MONTANA! - The last annual income from Internal Revenue in Montana exceeded eighty thousand dollars.

So Mr. Everette, the Assessor, informed us. "Pretty good this, for that young Territory. Utah, with seventeen years' wealth and industry accumulating on her, and with a hundred thousand tithing-paying population, doesn't half come up to gallant little Montana, so far as heard from. If she does, let the fact be known. Who knows? Can the Telegraph tell? We'll take our affidavit that it doesn't and it doesn't! And, if not, why not?"

We see by the Telegraph of yesterday, that "Elder M. G. Atwood's Mormon Immigration Company" was attacked by the Indians, at Horseshoe Station, seven "Mormons" wounded and one woman carried off. It would be advisable to send out to the rebellious Indians a "good, faithful brother," well versed in the Indian language and the "secret" signs of the "Eldonwood House," to bring back these renegade "Lamanites" to their allegiance to the "Great White Chief," and also to instruct "Elder Atwood" in the hitherto successful method of conciliating Indians on the Plains.

We would advise that the "brother" sent have his "garments" examined, especially about the knees and breast, that he may be successful; or, if he fails, that he "may not rise in the resurrection in a male state."

But, to show how precious both polygamy place women in "Saints" esteem, we must be content to leave them "for their" Stenhouse's Indian item. "At noon, the Indians stampeded our cattle and tried to drive them off; in the attempt wounding several, and captured and took away one woman, but got no cattle."

Office of Comptroller of the Currency,  
Washington, June 24, 1885.  
WHEREAS by satisfactory evidence presented to the undersigned, it has been made to appear that "The First National Bank of Nevada," in the County of Clark, in the State of Nevada, has been duly organized under and according to the requirements of the Act of Congress entitled "An Act to provide a National Currency, to be known by the name of U. S. bonds, and to provide for the circulation and redemption thereof," approved June 3d, 1864, and has complied with all the provisions of said act required to be complied with before commencing the business of banking under said act.

Now therefore I, Freeman Clarke, Comptroller of the Currency, do hereby certify that "The First National Bank of Nevada," in the County of Clark, in the State of Nevada, is authorized to commence the business of banking under said act.

In testimony whereof, without my hand and seal of office this twenty-first day of June, 1885.

FREEMAN CLARKE  
(No. 1531). Comptroller of the Currency.
